Personal Statement

I'm a 27 year old Communication & Multimedia Design student at The Hague University specialising in Front-End Designing. I'm from Curacao currently based in The Hague, Netherlands. I have a strong passion for everything that has to do with Front-end design & web development.

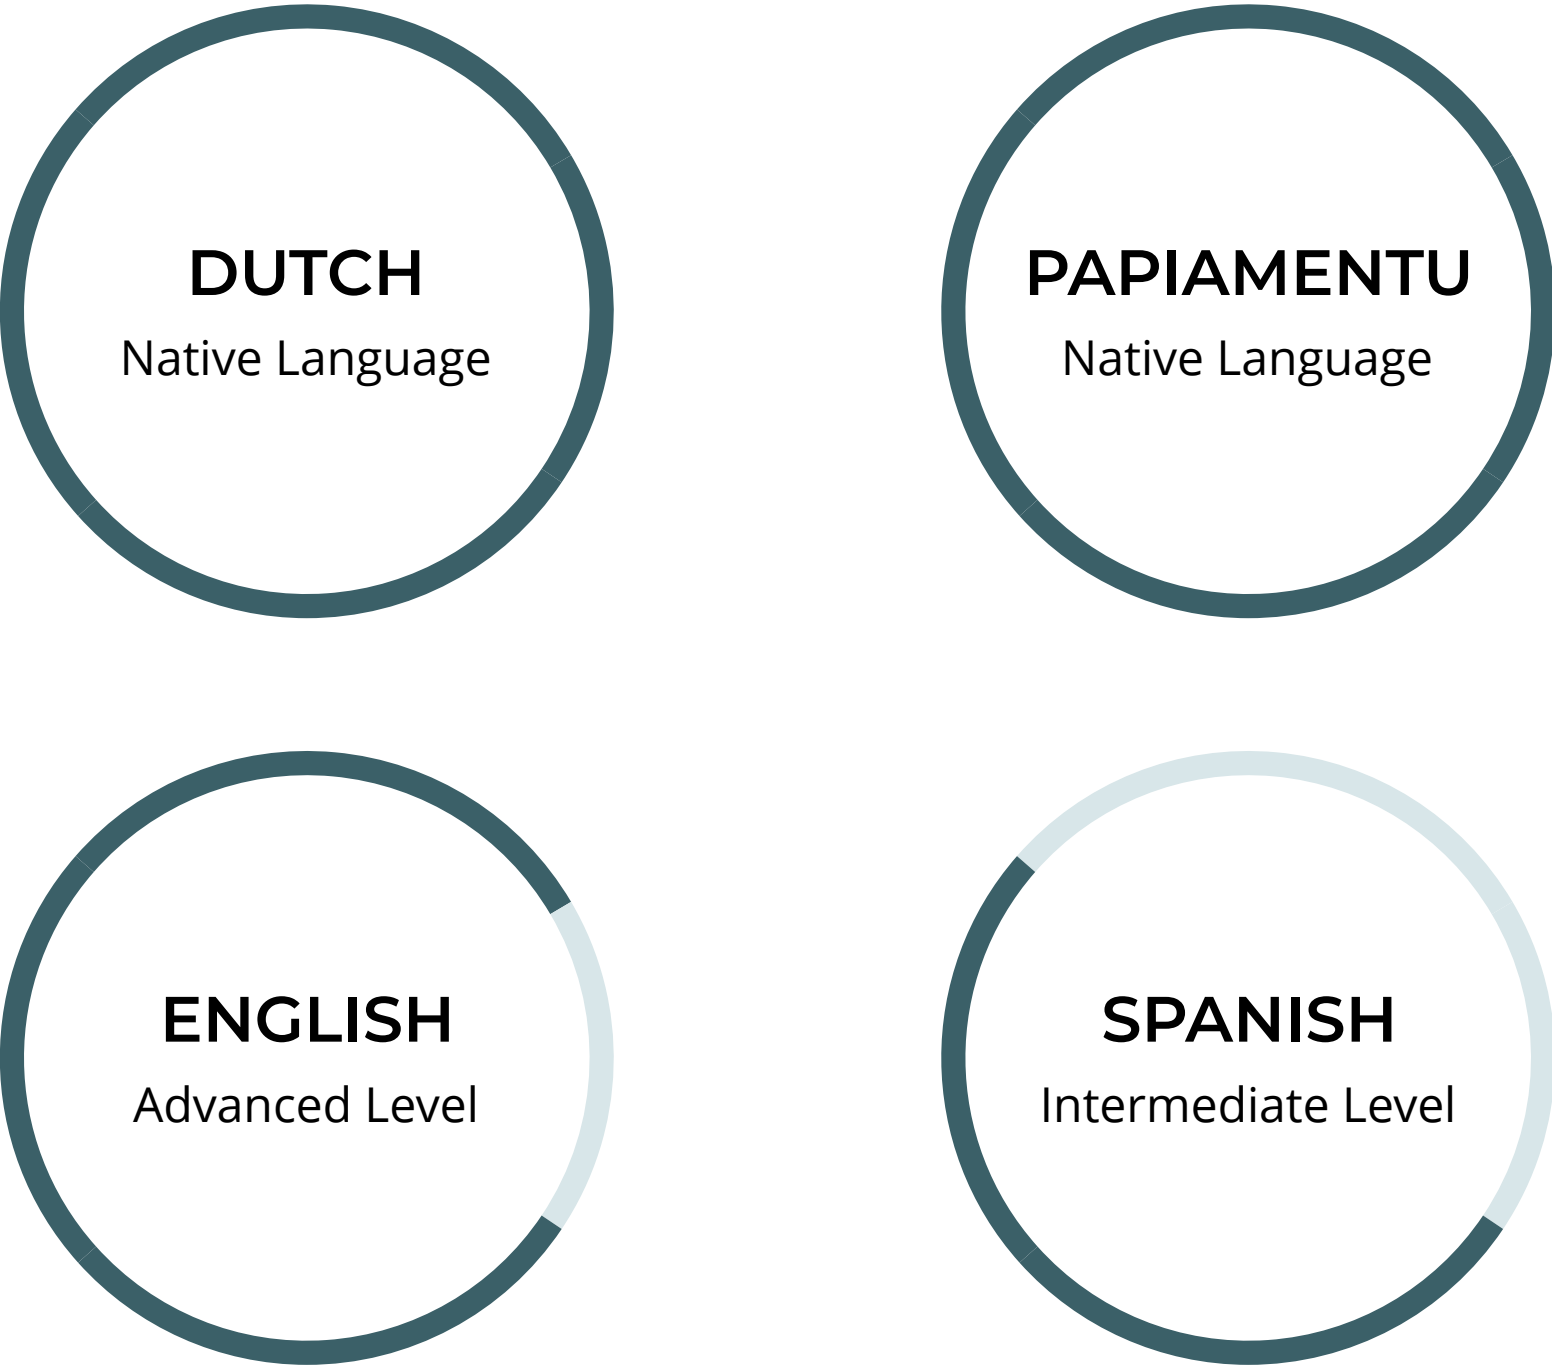

I would love to build up work experience so I can further my understanding of front-end design. I love working with people, specially if they have the same passion I have for what they do.

Why don't we collaborate? Read the rest of my CV to see why we should!
